

As a part of my job responsibilities as a system analyst, I am a member of a "On Call" rotation team with my colleagues. While on call, I am expected to do trouble shooting should a particular system crash for my employer, SAFECO. In order to make it possible for me to do my job, it is mandatory that I have 24-hour video relay services available. With further cutbacks, it will violate the ADA law which requires equal accessiblity. Thank you.
